

Critical Path raises email account quota!

Effective 10/18/07 all Critical Path member email accounts will be given more space. Those accounts that were set at 5MB will now have a quota of **15MB of space!** This includes your inbox and all of your folders. Please note that large files, such as attachments and photos, can take up an enormous amount of space. We encourage you to download these types of files either to a client (Outlook, Outlook Express, Eudora, Thunderbird, etc...) or to save them to your computer or on a disc.

Please contact us if you have any questions or concerns.
