

Dear List Administrators:

Due to recent complications, messages posted to any Listserv on December 12th, 13th, and 14th may not have been delivered.

We would suggest that you resend any messages sent to your lists during these dates. You may also want to post a message to the list asking your members to repost any messages that they sent. If you receive a bounce back message at anytime, please notify the Critical Path helpdesk and we will personally work on solving your issue. We apologize for this inconvenience.

- Sincerely the Critical Path Team
